

DIGITAL SAT

Class Time

Our SAT preparation classes run from 9 am to 11 am and 1 pm to 3 pm, offering the best times for focused and effective learning. These time slots are designed to optimize your study sessions, helping you absorb material and practice with minimal distractions, setting you up for success on test day.

Class Duration

Our program is designed to span 8 weeks, but we go beyond just a set timeline. We take full responsibility for your success, ensuring you have access to all our services until you achieve your desired score. With us, you're supported every step of the way, no matter how long it takes.

Preparation Fee

Choosing the right test preparation is crucial for achieving your desired score. Our preparation fee of 18,500 reflects the value of what we offer: 25 full-length tests, class recordings, a robust LMS portal, and dedicated support until you reach your goal. While some options may be slightly cheaper, they often lack these essential resources. A difference of 100 points in your score can have a significant impact on your future opportunities. Invest wisely in a preparation program that prioritizes your success and provides the comprehensive support you need to excel.

Class Mode

You have the flexibility to attend classes either physically or online, or even mix and match by attending some days in person and others virtually. This adaptability ensures you can tailor your learning experience to fit your schedule and preferences, making it easier to stay committed and succeed in your test preparation.

Class Recording

We offer class recordings for both online and physical students, and this feature is a game-changer in test preparation. While it might seem like a minor addition, class recordings play a crucial role in ensuring you don't miss out on vital content. Whether you miss a class, struggle to concentrate, have difficulty understanding complex topics, or fail to jot down essential notes, class recordings provide a comprehensive solution. They allow you to revisit and review lessons at your own pace, ensuring you fully grasp every concept and detail needed to excel. With this resource at your disposal, you can overcome any obstacles and stay on track to achieve your best possible score.

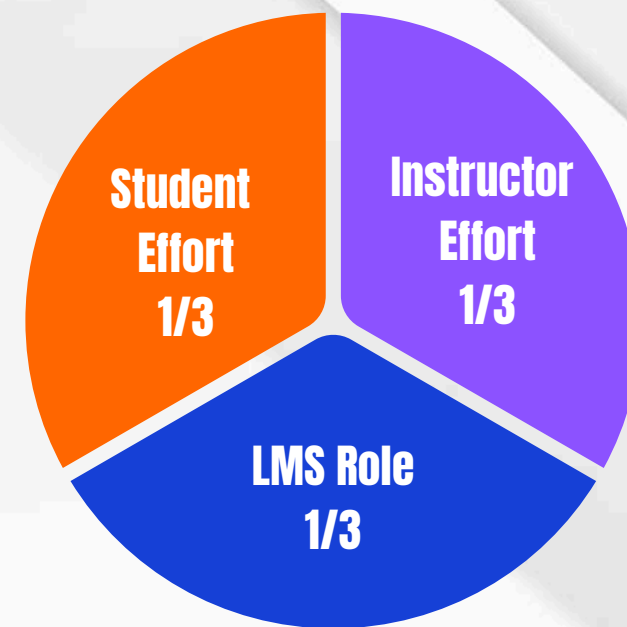

Learning Management System (LMS)

Our institution is the only one in Nepal with a fully functional LMS portal tailored for SAT success. While students often focus on choosing classes, a robust LMS portal is essential for achieving high scores. Without it, cracking the SAT is nearly impossible.

In mastering the SAT, a Learning Management System (LMS) is indispensable. This computer-based test requires a different approach than traditional paper-based study materials.

- ✓ Video Lectures for each Topic
- ✓ Time-bound Tests for each Topic
- ✓ Slides for each Topic
- ✓ All PDF Books
- ✓ Study Management
- ✓ Practice PDF for each topic
- ✓ Digital full length Mock Tests - 25
- ✓ Section wise Tests - 400+

The LMS portal itself is worth around \$2000. Check on internet

100% Success in DSAT

If other institutions claim similar features, we advise you to verify their claims carefully. Our LMS portal's comprehensive tools are unmatched and crucial for our students' success.

DIGITAL SAT

You can access all our LMS SAT courses immediately after admission. These courses alone are comprehensive enough to help you crack the SAT test. However, combining our classes with these courses gives you a 100% guarantee of success.

Total	90 Questions	134 Minutes	400-1600

Benefits of rolling classes

We follow a rolling class system for SAT, which is highly beneficial for students. In this system, students can join from any new topic, and their course is considered complete when that same topic is covered again. However, they can continue attending classes under our unlimited class policy. While some students might prefer a batch-wise system, the rolling class system is undeniably more advantageous.

The combination of our rolling class system, class recordings, and unlimited class access ensures a 100% success rate in the SAT.

Demo or Trial class

We do not offer demo classes because we are confident in the unmatched quality of our instructors and our LMS, which are the best in the industry. Demo classes can be misleading, as they often cater to common student psychology and may not accurately represent the rigorous standards and comprehensive preparation we provide. A single demo cannot reflect the full depth and effectiveness of our program.

We recognize that test preparation can be challenging, and it's natural to feel discouraged at times. However, we believe in the potential of every student. Our dedicated team is committed to working with you to unlock your full potential and achieve your best possible score.

To ensure your confidence in our program, we provide ID, books, LMS portal access, and a detailed study plan with comprehensive video resources.

Additionally, our class recordings give you a genuine insight into the quality and thoroughness of our instruction.

If you're still unsure, we offer a no-risk option: pay half of the fee upfront to access all our resources, and you can pay the remaining balance within 10 days. This allows you to experience the full value of our program firsthand and make a well-informed decision about your investment in your future success.

Assistance in Application

In the initial phase of your journey, you'll need comprehensive information about the U.S. education system, colleges, the application process, financial requirements, scholarships, and interviews. We provide all these crucial details to ensure you're well-informed. Once you've secured admission, our dedicated U.S. counselor will offer personalized guidance to navigate your next steps.

Should you encounter any complications, such as issues with booking dates or other challenges, don't worry. We will assist you every step of the way, providing support and solutions to ensure a smooth and successful process.

DIGITAL SAT

Location

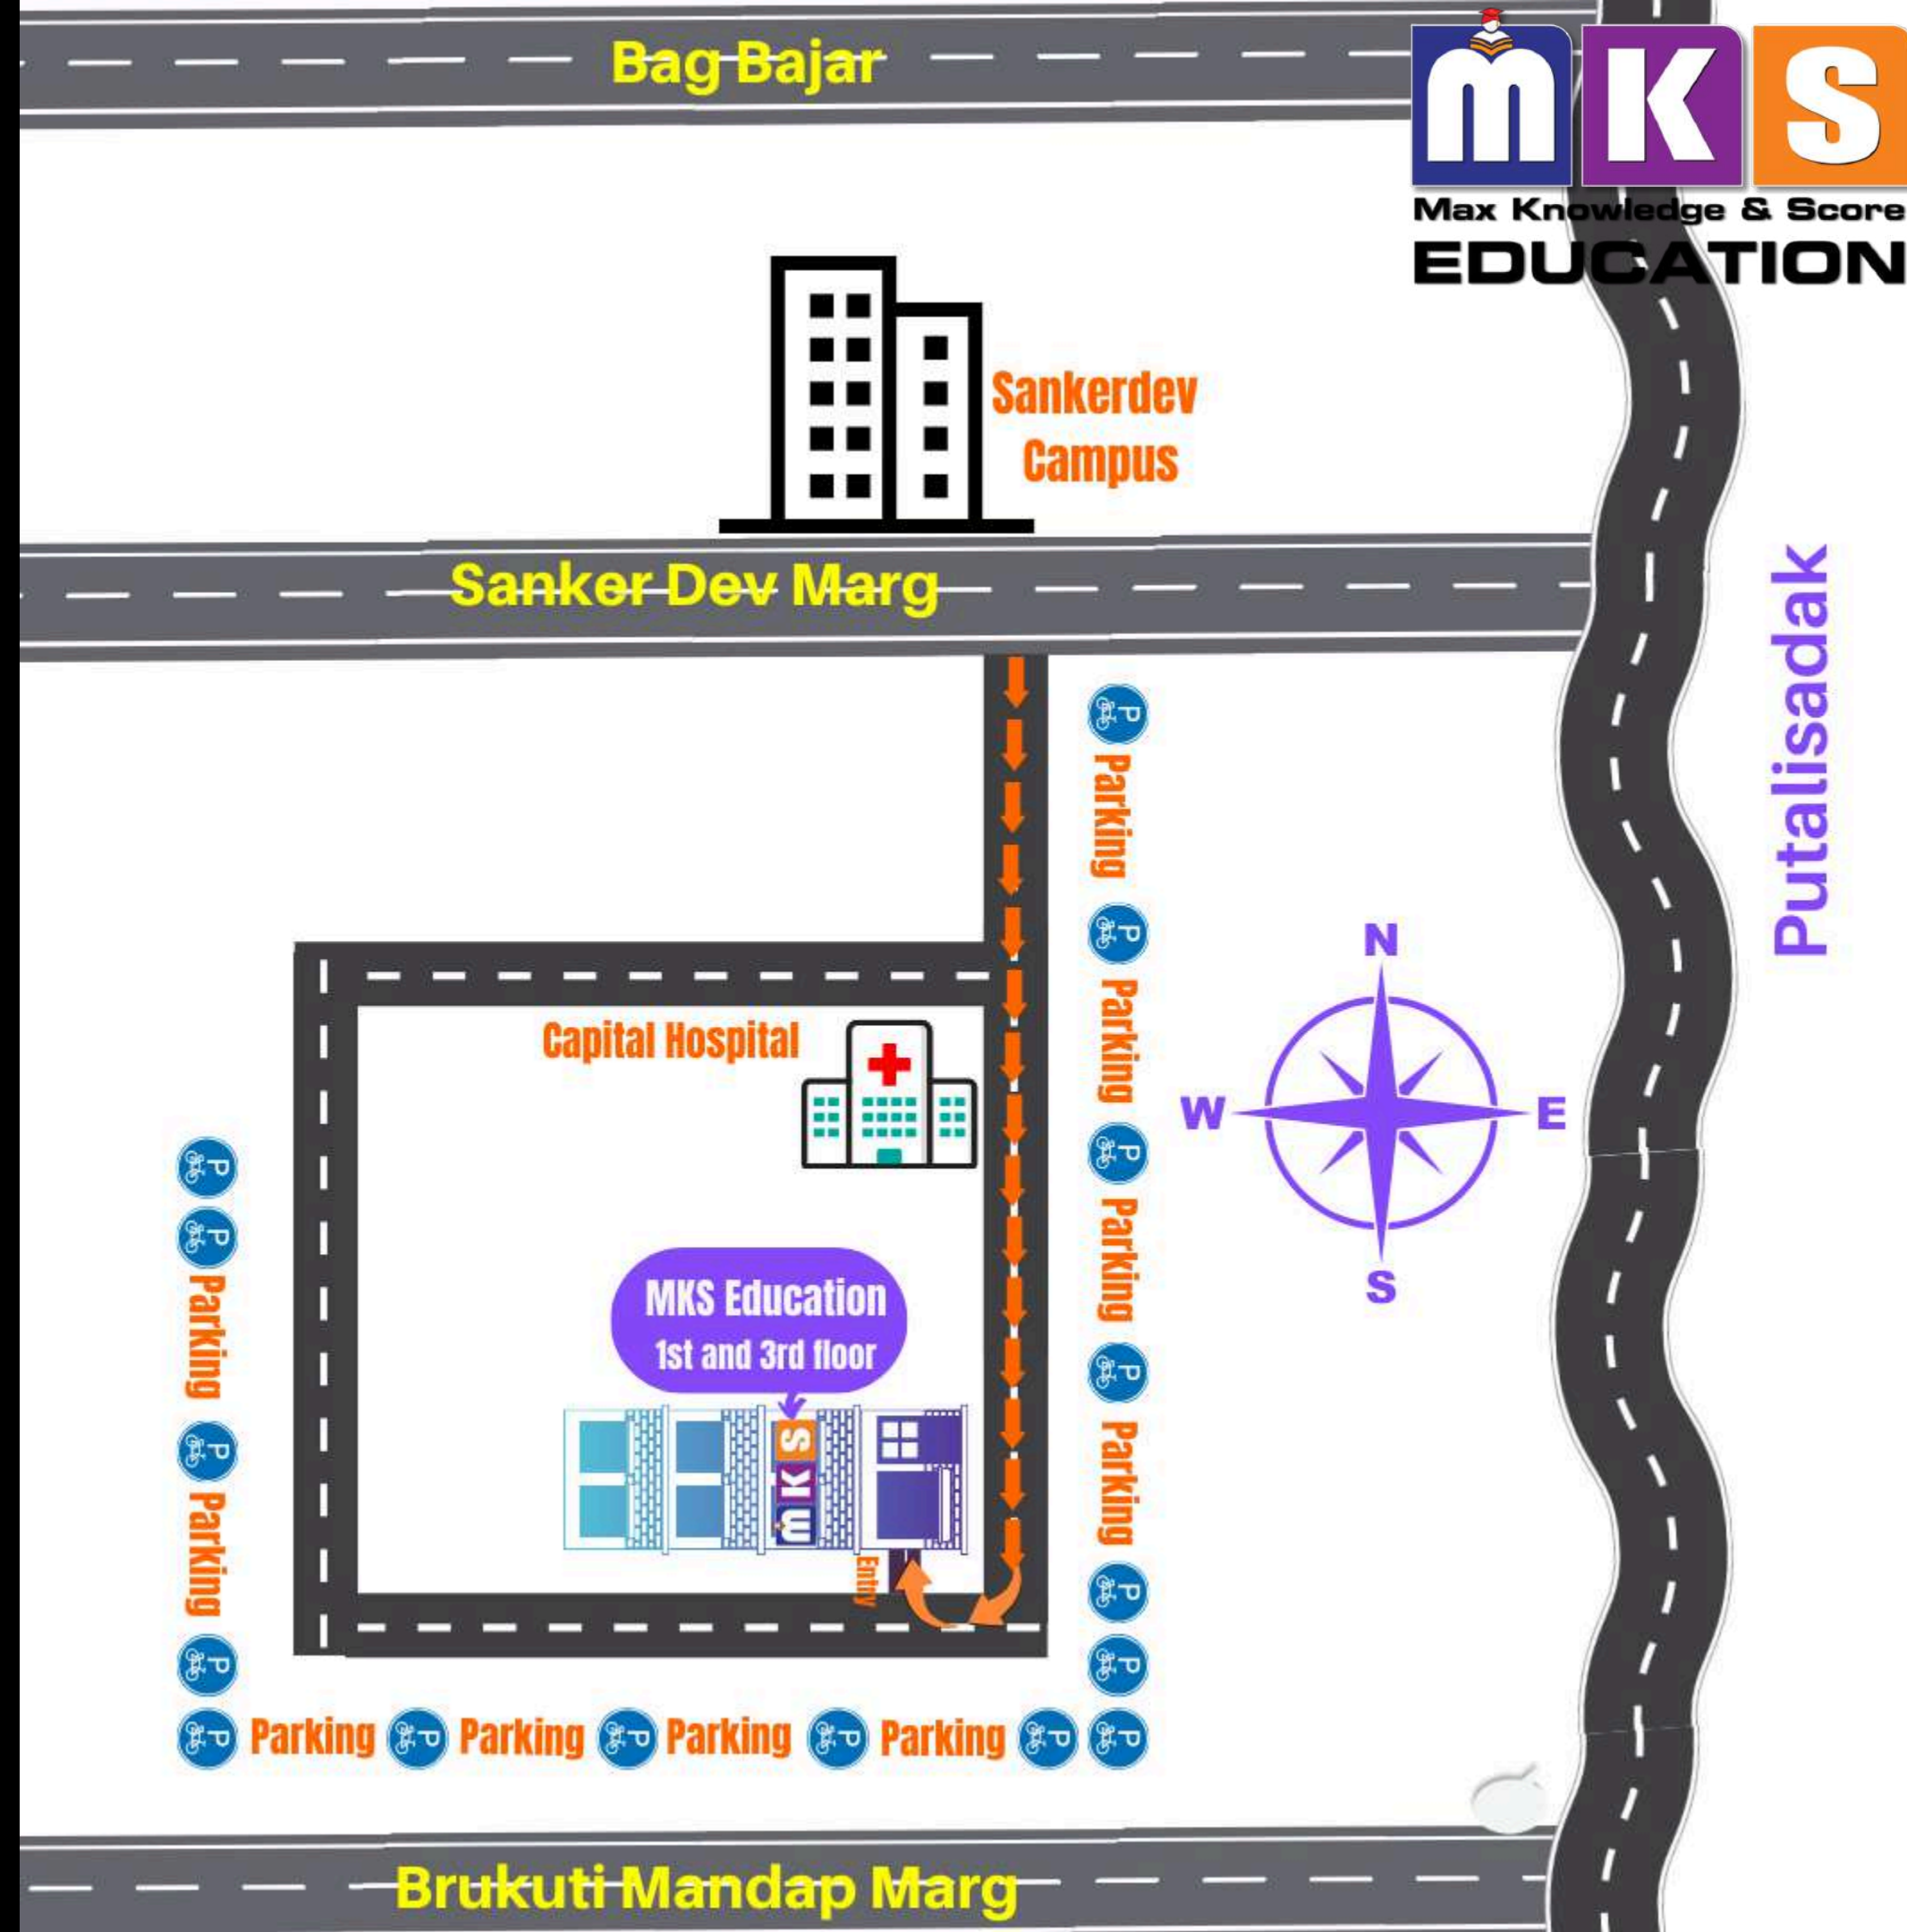

We are located in the heart of Kathmandu, directly opposite Shankerdev Campus. Walk to the end of the street, and you'll see the MKS Education signboard on the right side. Our office is on the 1st floor, and classes are held on the 3rd floor.

Office Entrance

The entrance to MKS Education is from the back side of the building, as shown on the map.

Parking

In the early morning and evening, parking is usually not an issue. During the daytime, you can find parking as indicated on the map.

If you find even half of the features we offer elsewhere, you're welcome to choose that option. However, we are confident that with our comprehensive support and exceptional resources, you will not regret choosing us. Contact us below to experience the difference for yourself.
